

Addition to the Rules and Regulations 2004/2005
Section 8.1 (911 House Numbering Compliance)

- a. Authority and Purpose**
All homes in Tink Wig shall display a house number at all times. The purpose of this house numbering system is to assist with quicker house identification for police and emergency purposes.
- b. Number Assignment**
Each home will be designated a number by Tink Wig which will serve as the location address for the property.
- c. Number Posts**
The house number shall be displayed on a post and must face the road. The post shall be located within 15 feet of the driveway entrance to the property and shall be at least 10 feet away from the edge of the paved road. The post shall be unobstructed and conform with the house numbering system.
- d. Type of Number**
The house numbers will be comprised of three digits. Each digit will be white on a green background, be of reflective material and each digit will be no less than 2 ½” high. The number will be visible and identifiable from the middle of the road and will be located on the post no lower than 36” (inches) or higher than 60” (inches) from the ground.
- e. Initial Installation**
A house number and post will be provided and installed initially and on a one time basis by Tink Wig in conformance with the provision of Section 8.1. This will apply to all existing homes. New homes will be provided a house number and post but will be responsible for installation in conformance with the provisions of Section 8.1.
- f. Replacement of House Numbers and Posts**
After initial installation, the property owner will be responsible for providing and installing a house number and the post in case of loss or damage or removal by any entity other than Tink Wig. Tink Wig will replace and install house numbers and posts after initial installation under the following conditions:

 - 1) Upon request of the property owner who will be charged for the cost of replacement.
 - 2) Without consent of the property owner when said owner has failed to replace a nonconforming, missing or damaged house number following 30 (thirty) days notice by Tink Wig for compliance. The property owner will be charged for the cost of replacement.
- g. Violations and Penalty**
In the event that a house number is not displayed as per Section 8.1, or the house number does not conform with sections c and d, Tink Wig will give property owner 30 (thirty) days written notice to correct the condition. After this period, and if the owner still has not complied with this Section, a fine of \$25.00 will be assessed to the property owner. Additionally, Tink Wig will be empowered to install a house number and post in conformance with the provisions of this Section, the costs of installation will be assessed to the property owner.
